Construction Project Update – Church Street Realignment and Sunnyside Beach Drive

Dear Sunnyside Beach Resident,

Over the past year, your neighborhood has been impacted by two road construction projects which will soon come to a close. Several residents have reached out to raise questions or express concerns regarding the improvements and remaining punch list items. We have been working closely with the contractors to address those concerns, such as vegetation and final restoration, the detention basins along the roadway, pavement condition at the seams and around the storm drains, and the status of the gate at the end of the road. Weather permitting, we anticipate the items being addressed over the new few weeks. Once the project is complete, the Village can take the necessary steps to accept the road and proceed with the gate installation. We realize that the construction impacts associated with this project have been challenging for you and your neighbors and are striving to get your concerns addressed and the project wrapped up. We appreciate the patience you have exhibited throughout the project and ask for your continued cooperation as the contractors work to complete the outstanding items.

We thank you in advance for your patience.

Respectfully,

Edwin P. Hettermann
Village President
